

DDS Logistics' SaaS* offering

From TMS to complete IT virtualization.

**French TMS leader
DDS Logistics
publishes transport
and international
trade software .**

DDS Logistics provides business solutions that cover all processes: sourcing, international trade, import/export procurement operations, tracing of physical and financial flows, multimodal transit operations, inbound and outbound transport.

Our solutions are intended for international buyers, shippers, agents, forwarders, carriers, 3 PL...

**Our solutions are now available in SaaS mode
so you can get rid of all constraints
and have more autonomy.**

Growing demand for this new distribution mode has urged DDS Logistics to entrust Orange Business Services with the hosting of its various business solutions: DDS Freight and DDS Truck. With Orange Business Services' *Forfait Informatique* cloud computing solution, DDS Logistics delivers its business solutions as well as complete IT infrastructure virtualization over the web. *Forfait Informatique* allows you to outsource your entire computer infrastructure and have access to your work environment and business applications.

The *Forfait Informatique* cloud computing solution allows you to free your company from computing constraints and focus on your core business

*SaaS: (Software as a Service); the SaaS mode allows you to use applications over the web through a subscription without having to install them on your company's computers.

Services**

Benefits for your company

High availability

- *Forfait Informatique* lets your teams access their data and applications 24/7.
- Orange data center's 99.8% availability rate guarantee.

Mobility

- Your associates can log on and work from any computer with an internet connection.

Security

- Your company's information system is secured and your data backed up on a daily basis.
- No risk of data loss for your business.

Cost control

- Straightforward IT budget without hidden costs for your company, no initial investment required.
- Maintenance costs are reduced too.

Upgradability

- *Forfait Informatique* gives your company's computer infrastructure more flexibility.
- Hiring a new associate? His/her workstation will be up and running in less than 48 hours.
- Moving headquarters or integrating a new office/branch? Your IT system is not impacted.

With Orange Business Services-hosted solutions, DDS Logistics helps you cut down on transport budget and IT costs.
